## DETAILED ACTION

### *Allowable Subject Matter*

Claims 76-79, 84-87 and 92-95 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to anticipate or rendered obvious the combined/elements of "wherein in accordance with a print instruction being provided by a user, or in accordance with reaching of a time set in advance, said allocation unit allocates codes other than the predetermined codes to the processes of the multiple processes other than the predetermined processes thereof, and said output unit outputs the printing data, which indicated the codes allocated by said allocation unit, to the printer", as recited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The claim limitation cited above refers to Figure 9 and Page 24, Line 24 through Page 26, Line 25, where a user requests to print the different codes assigned to the multiple processes by the user. Further the specification teaches steps 904 and 905 that unallocated codes are assigned to each program that is retrieved as a result from a search for a specific set of programs, which is described by the claim limitations, "said allocation unit allocates codes other than the predetermined codes to the
